Summary

Motivated 3rd-year Computer Science student with a keen interest in Machine Learning and Deep Learning. Passionate about applying advanced algorithms to solve complex, real-world problems and build intelligent solutions.

Education

Puducherry Technological University, Puducherry B.Tech in Computer Science Sept 2023 – May 2027

- GPA: 8.3/10
- **Coursework:** Data Structure, Computer Organization and Architecture, Operating System, Computer Networking, Database Management System

Projects

Email Spam Classification – GitHub Link – Kaggle Notebook March 2026 - April 2026

- Trained a Multinomial Naive Bayes ML model to predict Email is spam or not, and used Streamlit to represent in website.
- Tools & Technologies: Python, Kaggle Notebook, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Movie Data Analysis – GitHub link June 2025

- Performed exploratory data analysis on Bollywood movies to identify trends in budget, revenue, and ratings
- Tools & Technologies: Python, Pandas, Matplotlib, Google Colab

Blog Web Application – GitHub link March 2026 - April 2026

- A PHP-based web application where user and share their experience, article, read, also having features of liking blogs, share. It is still in the development phase.
- Tools & Technologies: PHP, Nginx as Reverse-proxy server, PHP-FPM web server

Internship

Bluestock Pune, Maharashtra

Software Development Engineer Nov 2025 – Dec 2025

- Developed a responsive web application using React.js and TailwindCSS, improving user engagement
- Collaborated with their team virtually to implement a REST api using Node and Express, and also integrated JWT-based authentication

Certification

Python Certificate
Kaggle June 2025

- Skills: Python

Intro to Machine Learning Certificate
Kaggle June 2025

- Skills: Numpy, Scikit-Learn, Pandas

Technologies

Programming Languages: C++ , C, SQL, JavaScript, Python

Tools & Technologies: Pandas, Numpy, Matplotlib, Scikit-learn, MySQL, Git, Github

Languages: Bengali, English, Hindi
